

La Academia Partnership Charter School

Student Testimonials

"I love La Academia. You can always count on the teachers for everything. They always are here to help the students succeed. La Academia provides a lot of opportunities for the students."

Ingrid – 2017 graduate

"The students at La Academia are all unique. La Academia is always improving and trying to help students be the best they can be."

Christopher – 2017 graduate

Mission Statement

Through collaboration and partnership with the community, La Academia will be a model school where student excellence in education is demonstrated through their successful learning in the classroom and their contribution to the community.

Vision Statement

La Academia is a small learning community where students can discover their talents as productive members of the community and be provided with a solid foundation of skills and knowledge that prepares them for higher education and training to high skilled jobs.

Educating for 20 years

Envisioning the next 20

A Brief History

- 1998 – La Academia Partnership Charter school opened
- 1999 – Continued as an educational alternative with a guiding vision of a school where each child will attain success regardless of socioeconomic and educational background
- 2003 – The new focus was Early College High School Program. LAPCS was 1 of 12 schools in the country selected for this honor.
- 2004 – New policies, procedures, middle school/high school curriculum, materials adopted as part of a comprehensive school reform
- 2007 – New adjacent building opened with gym, cafeteria, and library
- 2011 –LAPCS received a Title I School Improvement Grant for 3 years
- 2012 – School received 21st Century Grant 6A for 3 years to increase the STEM focus in middle school; developed a credit recovery program for high school students; ESL/GED classes for parents; AP US History course added; Dual-Enrollment with HACC; additional special education support added
- 2018 – PBIS behavior model adopted; partnership with Lancaster County STEM Alliance began; AP English class added; Elective music program added

PARENT TESTIMONIAL

“I love this school. I decided to move my son to this school, and it was the best decision. It’s been a hard process, but the communication with the teachers and the effort from them have been amazing. Every week they email me or call me to share his progress or explain where we need to work. My son is more confident and happier since he’s part of this school.” Ivelisse

STEM Focus

The Lancaster County STEM Alliance has recently announced their partnership with LAPCS. We look forward to providing more STEM activities.

Technology

We are currently working toward becoming a 1:1 school with a focus on using Google Classroom as a way to provide instruction.

6th Grade Academy

We added a mostly self-contained 6th grade model this year to meet the needs of students and help bridge the gap between elementary and middle school.
